

Price Arthur Consultancy

ENVIRONMENTAL POLICY STATEMENT

Price Arthur Consultancy operates within the field of Building Services Engineering, which forms part of the Construction Industry. The company aims to take all necessary measures in order to assist in protecting the environment, so far as is reasonably practicable.

The basic principles of the companies policy are:

- * to minimise the use of pollutants and the exposure of staff to the same
- * to avoid waste, to reuse and recycle wherever possible
- * not to deplete irreplaceable or slowly replenished natural resources

Environmentally sound decisions are fully considered when executing the design element of projects undertaken by the company. All efforts are made to provide energy saving plant and systems, such as:

- * the installation of energy efficient lighting
- * the maximum use of natural ventilation
- * the installation of low energy consumption heating plant, etc.

Price Arthur Consultancy seeks to uphold Statutory Legislation and Codes of Practice which are relevant to the protection of the environment.

Managing Director: Clifford L Price - C. Price
