Price Arthur Consultancy

SUSTAINABILITY POLICY STATEMENT

The Practice of Price Arthur Consultancy (PAC) and their Clients are committed to reducing the impact on climate change by reducing harmful carbon emissions and maximising environmental benefits.

The Practice shall ensure that it and Contractors engaged in project work (or any other work) for the Client shall adopt the Client's stance in the area of sustainability, potential areas where this commitment can be demonstrated include:

- (i) Suggesting economically viable amendments to any aspect of a project which may result in an improvement in the environmental performance of the building and its engineering services.
- (ii) Reduced use of energy and of natural and manmade resources.
- (iii) Operating a comprehensive waste management strategy to deal with all waste generated from their service.
- (iv) Improved employment and training opportunities.
- (v) Sourcing products and materials from sustainable sources and reducing waste.
- (vi) Using suitably sized energy efficient and low emission vehicles, route planning and work scheduling to minimise journey distances.
- (vii) Operating spare parts and consumable levels to minimise unnecessary journeys and deliveries.
- (viii) Any other measures intended to protect or improve the condition of the environment and the well being of people.
- (ix) Providing all information that is reasonably requested regarding the environmental impact of the supply and use of materials and goods.

The Practice wishes to measure and monitor the impact on the environment by simply measuring and reporting on the carbon emissions so that reduced targets can be set and the improvements monitored.
